To whom it may concern
Mr C Gleeson - Builder

I am pleased to write this reference for Cary Gleeson.

Over the past six years Cary has won several contracts to carry out renovation and new building work here at our school. Some of the work has been small in nature, other work has been quite major.

In each of these situations we have appreciated Cary's willingness to keep us fully informed as to what was taking place, and if there were options available as the job progressed, these were made clear to us and assistance with our decision making was provided.

He works with a first class team. His co workers (and I say that in all sincerity - as that is how he considers them) are first class. They are excellent tradesmen who are conscientious, skilled, honest and reliable. he believes in the premise that 'quality is remembered long after the price has been allowed for.'

This can also be said regarding his related tradesmen - electricians, plumbers and painters etc. who are also reliable and conscientious. In fact if he does not feel happy with the quality of their work, he does something about it.

I am happy to recommend his firm to anyone who is considering carrying out a building project, in fact if I was considering building my own home, I would be extremely happy to enter into a contract with Gleeson Builders. This is probably the best recommendation that anyone can make.

Yours sincerely
