Dear David and Cary

Thank-you for the great job you did on the extension to our home. The Architect worked hard to keep with the original design of the house and along with the suggestions you made we have ended up with exactly what we wanted.

We really appreciate the care you took working around two small children who were very interested in everything you were doing. The job was finished on time and just as well as baby number three arrived early. He is doing just fine now and life is very busy.

We would be more than happy to provide anyone with a reference as to the Quality and workmanship of your company.

Yours faithfully

Annette Jenkins
